

Youth Equipment Store: Accessible Items

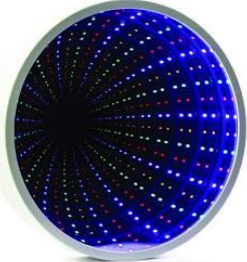

FREE to loan to families with a child / young person with a disability or additional need in Somerset and delivered to their door during this lockdown period.

This equipment is very specialist, but may offer sensory room lighting and effects, the ability to use accessible buggies for daily exercise and the Safe Space sleep tents may support within the home too.

To access any of this, please contact the Store directly: 01278 741270 / YES@somerset.gov.uk

See items list below.

Please note - the images are an example of what is on offer and are not the exactly the same as what families may receive, items are on loan so requests may not be able to be fulfilled until an item is returned.

<p>Dotty Parachute Set</p>	<p>1</p>	<p style="text-align: right;"><small>Copyright ROMPA Ltd</small></p> <div style="text-align: center;">  <p>ROMPA DOTTY PARACHUTE SET 19716</p> </div> <p>CONTENTS Your set is supplied in one plastic storage bag containing 1 x parachute in its own fabric bag 16 x balls</p> <p>ACTIVITY SUGGESTIONS</p> <p>Humongous Fungus! Lay the parachute out on the ground. Players kneel on the ground around the edge of the parachute, holding onto a handle/edge of the parachute. Upon hearing a prompt to be decided by you, all the players stand and lift the parachute over their head, creating a mushroom shape. Players may wish to take a few steps inwards towards the centre of the mushroom.</p> <p>Mexican Wave All players stand holding a handle or the edge of the parachute. Taking turns, the first player raises his handle/edge and then brings it down quickly. The player at his side (decide whether players are to take turns in a clockwise or anticlockwise direction) repeats this action, and so on with the next player. If done correctly, the wave will create a burst of air under the parachute.</p> <p>Cat Catch That Rat! Spread the parachute out on the ground. All players kneel on the ground, holding on to a handle. Decide which player is the 'rat'. Decide which player will be the cat. The cat is on all fours on top of the parachute. The rat must close his eyes for a set amount of time (you decide how long) while everyone else around the parachute starts to make small waves with the parachute. The rat must scurry under the parachute to hide from the cat. After a set time the cat opens his eyes and tries to catch the rat. The cat has only a few seconds (you decide how many) to catch the rat. Encourage the other players to count that number of seconds. A successful cat then allows the rat to become the cat, and someone else is the rat.</p> <p>Popcorn All the players stand holding the parachute by the handles or edge. Throw the balls into the centre of the parachute. Shake the parachute and watch the balls pop up like popcorn.</p> <p style="text-align: right;"><small>DOTTY PARACHUTE SET 19716, KH 4.10</small></p>
<p>Victor the Vibrating Turtle</p>	<p>1</p>
